

## **Publication Data Sheet**

File Name: D-8483

Document Title: Enterprise Level Security: Insider Threat Counter-Claims

Publication Date: October 2017

Source of Document: ITSD

Keywords/Meta-tags: Insider Threat; Reputation; Veracity; Integrity; Claims; Counter-Claims; Behavior; Motivation

Description: Because Enterprise Level security (ELS) has no accounts or passwords, identity is an important issue; we review the data categories, data requirements, and data resources that apply to entity veracity, as well as the counter-claim structures and issues associated with their tracking, and usage.
